

 iLUMIO

Interactive hotel TV systems

iLumio TV and iLumio TV webOS

The iLumio solutions offer a new generation of hotel TV systems based on a central platform available in the Cloud. Hotel TV is not only an excellent way for hoteliers to promote their services but also a great source of additional income.

iLumio TV, based on STB is an advanced multimedia entertainment centre as well as a source of information for hotel Guests.

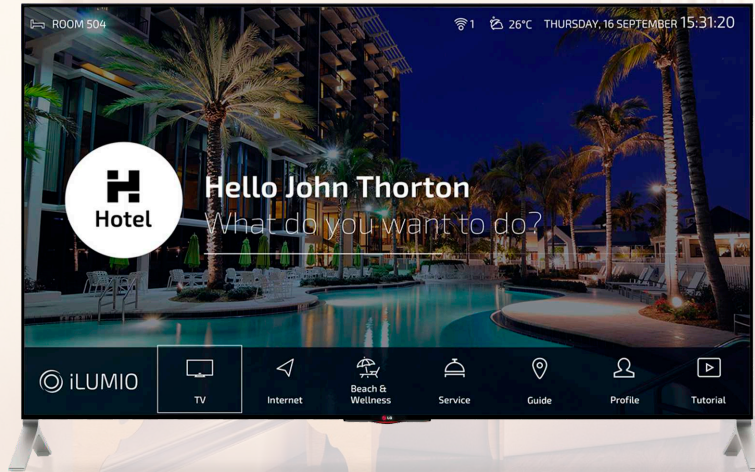

iLumio TV webOS, dedicated to Web OS 3.0 LG TVs does not require the installation of an external STB. It provides a high video quality and acts as a multimedia, entertainment and information centre.

iLumio TV

State-of-the-art interactive hotel TV

The Internet, videos-on-demand, HD TV - iLumio TV incorporates all of these options, making the hotel stay enjoyable for your Guests. Being the vital part of iLumio TV, Set-Top-Box is an electronic device connected to the TV acting as a multimedia, entertainment and information centre. It allows the Guests to interact with the hotel. The system is based on the IPTV technology and is therefore dedicated to all hotels with the IP solutions in every room.

This product is recommended for all hotels which aim for a state-of-the-art interactive TV system compatible with all types of TVs (LG, Samsung, Philips).

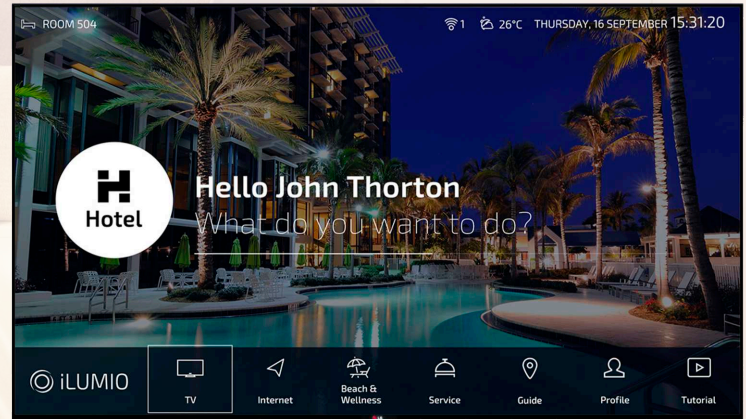

Customising is one of the solution's biggest asset:

- { splash screen with the Guest's name, automatic selection of the language system
- { possibility for the Guest to check their bill
- { booking additional hotel services and giving full information about available entertainment
- { marketing automation - possibility to easily prepare a marketing campaigns and deliver its content automatically to every Guest
- { a selection of surveys allows for getting the hotel Guests' feedback about their stay

iLumio TV WebOS

Hotel TV in the Cloud

iLumio TV webOS is a system acting as a multimedia and digital entertainment centre for a hotel Guest. Created especially for selected LG TV models with the webOS system– versions 3.0 and up.

Does not require the installation of any additional external STB. Optional channel sources including: IPTV network or TV channels delivered via the coaxial cable.

This product is recommended for hotels seeking for a fully interactive TV system without the an external Set-Top-Box.

Opting for this solution brings numerous advantages, including quick and easy installation, access to the most useful functions of the hotel TV system like:

- { the highest quality TV channels
- { informative sites about the hotel, integrated with the PMS system
- { the Internet browser, TV games and applications, TV as a mobile screen
- { successful marketing (automation campaigns)
